

# eDiscovery Fact Sheet

Infotrend, Inc. is a premier **eDiscovery** litigation support boutique with 16+ years of EDRM expertise in the entire eDiscovery and Records Management lifecycle. Our staff are certified experts in eDiscovery tools and are experienced in the implementation, integration, and training of all major products. Our expertise lies in increasing organizational efficiency through process improvement and re-engineering, having delivered proven results for clients such as the SEC, CFPB and FDA.

## eDiscovery SOLUTIONS

Infotrend provides end to end eDiscovery services from Legal Hold Management to productions.

### FOIA Support

Infotrend provides support for FOIA request analysis, search query generation, document collection, and preparing request responses

### Cloud Services

Infotrend has done two major legal technology migrations from on-prem to cloud solutions that includes 60 TB of data and planning for another 500 TB in near future

### Process Improvement

Infotrend SMEs are expert in identifying process improvements in legal technology environments. We recently executed a project for DOJ to analyze and improve their AV data intake, storage, and review processes

## Why Infotrend?

Infotrend will help your organization achieve the most successful outcomes by reducing cost, producing faster results, and save time. Streamline and improve the litigation process with best in class eDiscovery leadership. Our team quickly adapts to each agencies needs by staffing organizations with tech savvy resources. We have successfully deployed, upgraded and released numerous industry leading applications and software on premise and in the cloud. Our team of operations managers, trainers and FOIA Analyst, and EDRM support services workers are ready to produce results for your operation.
